# Top 3 Abatement Contractor

In the US according to the 2019 Engineering News-Record

\$60 million bonding capacity • \$10 million insurance policy

## SERVICES

### Air Duct Cleaning

Over the past decade, our team has emerged as a top provider of duct cleaning services. This offering allows us to deliver even more turn-key solutions to our customers.

Regular maintenance and cleaning of various heating and cooling system components helps lessen the effects of airborne contaminants.

### Asbestos Abatement

Our team performs abatement on facilities, schools, hospitals, bridges, government projects and railroad sites across the country.

Projects have ranged from \$5,000 to over \$20 million.

### Demolition (Structural & Interior)

As a leader in the demolition industry in the Rocky Mountains and the Midwest, our turnkey firm is able to self-perform all aspects of demolition, abatement, and contaminated soil remediation with our own staff and equipment.

- Large fleet of owned heavy equipment and trucks
- High-reach excavator allows us to demolish tall structures on site that other firms can't touch
- Class A demolition license

### Hydro Blasting

We have the unique equipment and expertise to perform Ultra High Pressure (up to 40,000 PSI) Water Blasting "Spin-Jet" coating removal.

This process is used for coatings containing lead, asbestos and other hazardous and non-hazardous materials.

### Soil Remediation

As a leader in contaminated soil remediation, we have removed several million cubic yards of asbestos, petroleum, lead, and coal ash contaminated soils.

### Additional Services

- Biohazard & Chemical Decontamination
- Biological Waste Removal and Disposal
- Catastrophic Cleanup and Debris Removal
- Coal Ash Clean Up
- Dust Control
- Hazardous Materials Remediation
- Indoor Air Quality
- Industrial Services, Match Marking, Assembly & Disassembly
- Lead Abatement
- Migratory Bird Deterrent Services
- Mold Remediation
- Nationwide Disaster Support
- NORM and TENORM Remediation
- Water Remediation

**"Their impressive safety record assisted in the contract award and was proven on our project site."**

Tom Warner  
Denver Transit Partners
